Briefly explain why you
are interested in serving
on this Board or
Commission and what
you would like to
accomplish. I am interested in serving on this Committee because I feel that energy efficiency and energy conservation measures are a crucial piece of environmental stewardship and fiscal responsibility. I have experience in a few different aspects of this area that I think may benefit the town. I hope to help to measurably decrease the town's electric consumption and increase the use of renewable energy.

Please outline other
education or experience
which would be helpful to
the Board or Commission
to which you are
applying: I am currently an Analyst in the Renewables Department at Eversource Energy where I manage commercial Renewable Energy Credit (REC) contracts and aid in the development of new renewables programs. My former job was as Facilities Manager for the Cigna Healthcare corporate headquarters; I was also Assistant Facility Manager for the Hartford Insurance corporate headquarters. There, I worked on a number of energy efficiency and energy conservation projects and managed equipment maintenance contracts and critical asset databases. I helped develop capital improvement/replacement schedules based on equipment life cycle and condition. I have a Bachelor's degree in Political Science and I am currently a student in UConn's Master's of Energy & Environmental Management program. I have also served on the CT TBI Advisory Board for 12 years, including 3 years as Chair (I am currently Secretary), and I understand the functionality and responsibilities of serving on a volunteer committee.
