Engineering Evaluation Report
In Support of Request for Reassessment of Residential Building

PA 16-45

Per Connecticut Public Act 16-45, Section 2(a), which states in part, "Any owner of a residential building who has obtained a written evaluation from a professional engineer licensed pursuant to chapter 391 of the general statutes indicating that the foundation of such residential building was made with defective concrete may provide a copy of such evaluation to the assessor and request a reassessment of the residential building by the assessor."
The amount to which a residential property's assessment may be adjusted is dependent upon a licensed professional engineer providing information adequate to determine the degree of severity the defective concrete presents. The lower portion of this form is to be completed by the engineer for such purpose.

Where not provided on opposite side of page:
Location of property in with Defective Concrete: ________________________________

Property Owner: ________________________________

Property Owner's Mailing Address: ________________________________

Property Owner's Daytime Phone #: ________________________________

Property Owner's E-mail Address: ________________________________
