OFFICE OF THE TOWN MANAGER
(860) 742-6324

February 28, 2018

To the Coventry Town Council and Citizens of Coventry;

In accordance with the Coventry Town Charter, I am presenting to the Town the Town Manager’s recommended budget for Fiscal Year 2018-19 in the amount of $40,837,730. The Town, Debt Service, Capital, and School budgets have increased by $523,755, after a decrease of $236,827 the prior year. This is a 1.3% spending increase after a .6% reduction in year over year last fiscal year. State aid reductions both after last year’s budget adoption, and proposed for this year will require local property taxes to make up the difference. The proposed mil rate required to fund the proposed FY 19 budget is 32.89 which is an increase of .89 mil or 2.78%. State Education Aid is reduced by $916,620 (11.0%) over last year’s adopted budget which is equal to .93 mils. Combined with other State aid reduction we are down $987,198, which is equal to more than 1 mil in taxes. So these proposed State aid reductions are fully responsible for more than the entire tax increase. Though a combination of proposed cutting of targeted spending and local revenue growth we would have been able to avoid an increase in property taxes without this State aid cuts. In fact, we were able to absorb some of the aid reduction. Given the state of the State finances we need to monitor this year’s budget since mid-year cuts are expected.

It is very important to note that I am using the Governor’s proposed budget revenue estimates. These numbers differ greatly from both the current and second year of the adopted State Budget. After the very late November adoption of the State budget the Governor enacted “holdbacks” which took away an additional unanticipated $723,805 dollars of State aid to Coventry. Working with the Board of Education, the Town Council was able to further reduce operating budgets, dramatically reduced the capital budget, and tweaked revenue estimates to avoid send out a supplemental tax bill. This was greeted with dismay collectively by Senators and Representatives of both parties but no corrective action was taken. The Governor is now proposing to not only make these holdbacks permanent but also to cut municipal aid further. To do this our State Elected Officials will need to vote to amend the second year of their adopted budget and accept the Governor’s proposal. The Governor’s proposed budget calls on cuts to Coventry of $922,106 from the current
adopted budget. This can only happen if the adopted budget is changed. To be very clear: If the Senators and Representatives reject the Governor's proposed changes and leave municipal aid as it stands in the adopted budget no property tax increase would be required. This illustrates our point that reductions in State Aid cause property tax increases.

This budget was originally developed by the Town Manager with the goal of minimizing any tax increase but still addressing urgent community needs. Working with Staff and the Schools we were able to absorb a portion of the reduced aid and maintain essential services.

The Council and staff are very aware of the economic conditions that exist in our state and nation. While Coventry is better off than many communities, and continues to see some growth and continued real estate sales, the state economy is not predicted to come roaring back and more likely it will be a slow climb to better times. This is compounded by the new emerging issue of crumbling concrete foundations. We already have lost almost a million in grand list value and believe it will get much worse before the crumbling concrete foundation issue is resolved. We continue to see positive signs of economic recovery. However, we recognize that tax increases will not be easily absorbed by many in our community so they have been kept as small as possible. The chart below shows the percentage of the total proposed increase allocated by budget.

![Chart showing percentage of total increase by budget]

This budget should not be classified as a status quo budget. Both the Town and school district have proposed changes to move the community forward. The focus is on prioritizing services and developing the most cost effective ways to accomplish them. "Status Quo" alludes to standing still. Neither agency believes the times allow this as an alternative. Instead we are moving forward toward a goal of providing better and more cost effective services. Resources are being reallocated to areas of need. Some services may be reduced and/or curtailed. Others with demonstrated need may receive more attention.
The following chart shows how the proposed taxes on a median house are allocated between the four budgets.

**Annual Tax Breakdown for Median Household**

- **Education**, $3,188.45
- **Debt**, $338.39
- **Capital**, $109.62
- **Town**, $1,129.54

**Town Operating Budget – a $72,232 increase: .75%**

The General Government is seeking an increase of $72,232. We have tried to make adjustments without creating too many negative impacts on service to the citizens. We have evaluated many options to reduce expenses and to bring in additional revenues. The budget is presented to show how some of the proposed budget initiatives are designed to address the adopted goals of the Town Council. Please review that section found later in this budget letter. The following chart shows how the tax dollars on the median house are divided by service delivery area.

**Median House Town Tax Dollar**

- **Public Works**, $276
- **Human Service**, $33
- **Civic & Cultural**, $65
- **Public Safety**, $286
- **Gen Admin**, $186
- **Sundry**, $256
Capital Budget – a $800 decrease: 0%

The Capital Budget is proposed to decrease by $800 below current levels. The proposed amount freezes progress toward the sustainability level of $1,000,000 per year. With this decrease the Capital budget does not even reach spending levels of the mid 90’s when adjusted for inflation. Historically many proposals were delayed until more funds were available. The long backlog of essential projects and equipment replacement continues to grow. Many of these projects increase in costs over time and the Town ends up borrowing to “catch up”. If we could, we should be paying cash now to reduce the long term costs to the community, but ability and willingness to pay are real factors which always must be considered. We continued the practice of limiting lease purchases to equipment costing at least $50,000. Please see the Capital section of the budget for a list of proposed projects and purchases. The Capital program can also be used as a hedge against receiving less than expected State Aid. In fact, in FY 18, the capital budget was reduced by 1/3 to make up for mid-year budget cuts. If the revenue does not come through as promised by the State, portions of the capital budget could again be frozen or reduced to assist in balancing the budget.

Debt Service – a $184,660 increase: 6.78%

Debt Service will increase by $184,600. Debt service is only 7.1% of the annual budget. The increase is not due to any new borrowing. Instead it is caused by the scheduled increase in interest rates for some of the existing debt, the first full year payment on the road bond ($170,000 increase) and the loss of the one-time use of bond proceeds in FY 18 in the amount of $49,521. These increases were offset by other declines. There is a proposal to replace one dump truck using lease purchasing which is fully offset by other retiring leases (See Debt Service section of budget).

Board of Education – a $267,663 increase: .99%

The Board of Education budget requested $267,663 in additional funds for a total request of $27,312,347, a .99% increase Additionally, $242,000 in education capital projects is proposed comprised of computers, classroom furniture, and kitchen equipment. Please refer to the separate Board of Education budget document for a more in-depth discussion of their spending proposal.

Revenues: State Revenue - Uncertainty and Chaos.

The State budget remains an area of great uncertainty and needs to be watched carefully. The Education Cost Sharing grant, our largest grant, is targeted by the Governor for a very significant reduction in the current state adopted
budget for FY 19. He proposed to carry forward this year’s mid-year holdbacks and also cut additional municipal aid. Total intergovernmental aid would be reduced by $987,1980. This, is on top of prior year reductions, mean the 2-year state aid loss is $1,651,204 which is equal to 1.73 mils in property taxes. This is why we were required to raise taxes .8 Mil in FY 18 and are proposing a .89 increase this year. Our adopted and proposed increase would equate to 1.59 mils which is .14 mils less than State aid cuts. This demonstrates that even with increased expenses we are trying not to just pass through all of these State aid reductions.

Property taxes cannot on their own produce an adequate income stream to support a quality education system. Our grand list grew by around 1.47% but we continue to have the reductions due to crumbling concrete foundations. Investment income continues to be very low while development-based revenues have started to increase but remain lower than in past years. This year new growth in our grand list will produce around $500,000 in additional tax revenue at the current comparable tax rate.

2018 – 2019 COUNCIL GOALS

The Town Council provides the oversight and leadership required to establish policies that guide the direction of the Town and ensure the optimum delivery of services to residents in the most cost-effective manner possible. Members of the Town Council serve without compensation and elect their own chairperson and vice chairperson. The policies that are established by the Town Council are delegated to the Office of the Town Manager for execution. [Note: The Council goals are in bold and the strategy to work toward these goals follows each. Strategies with budget impacts are in italics]

GOALS:
Goal One – Community Cohesion & Collaboration: Work in collaboration with our Board of Education and other Boards/Commissions to ensure a respectful partnership in providing the efficient use of resources, financial and otherwise, to benefit our students, seniors, persons with special needs and all members of the community.

Strategy 1: Hold at least four joint Finance/Fiscal committee meetings between the Town Council and Board of Education each year.

Strategy 2: Invite Boards and Commissions in to Steering/Liaison Committee to provide updates and share problems/concerns and opportunities.

Strategy 3: Hold at least two Land Use Consortium meetings annually.

Strategy 4: Develop a program to recognize the contributions of our volunteers and actively recruit new volunteers.
Strategy 5: Continue supporting homeowners with crumbling concrete foundations by lobbying State/Federal officials for relief and promoting existing opportunities for grants and tax relief. *Coordinate the CDBG testing program for regional towns, assist homeowners qualify for assessment reductions, advocate for State to start the funding for repairs.*

Strategy 6: Focus on the needs of seniors and study transportation and programming needs at our Center, Orchard Hills and in the community, and consider additional inter-generational events. *Resolve the senior meals issues, broaden senior programs for more recreational content, Programing funds increased slightly.*

**Goal Two – Community Stewardship:** Be good stewards of our environment, Town character, our parks, and be supportive of local farming.

**Strategy 1:** Enroll in Sustainability CT and obtain at least a Bronze Level certification.

**Strategy 2:** Collaborate with Coventry Lake Advisory & Monitoring Committee and continue appropriate aquatic invasive species treatments. *Funds included to assist in fanwort monitoring of Eagleville lake and Hydrilla treatment in Coventry Lake.*

**Strategy 3:** Continue improvements to our parks, athletic fields/recreational facilities and open spaces such as: connecting open spaces, park improvements, Depot Road Park and a long-term sidewalk plan. *Depot Road park will be in construction this summer with State grant money, will review the Hale greenway plans to develop strategies for next steps, will prioritize working with Conservation Commission to rebuild Patriots Park Woodlands trails using Locip funds. Funds are included to install a septic system in Laidlaw park and will consider building the Disc golf course there instead of Creaser Park. Will continue next stages of Miller Richardson including efforts to irrigate the major league field and parking enhancements.*

**Strategy 4:** Open the Millbrook Place facility for public use for community/cultural events. *Funds are included to complete enclosing the connector between buildings and to cover the utilities expense. Recreation has started listing the facility for rent and several Arts guild events and rec classes are being planned.*

**Strategy 5:** Plan for the future of the Caretaker’s House at Patriots Park in conjunction with long-range planning for the park. *Will work with the Rec Commission to further review plans and reach decision to either renovate or remove the caretakers house.*

**Strategy 6:** Using Local Capital Improvement Program (LOCIP) funds, continue improvements to Miller Richardson Field. *Irrigation and parking enhancements planned.*

**Strategy 7:** Complete the update to the Plan of Conservation and Development. *Funds for updated GIS mapping and printing included.*
Goal Three – Public Safety: Support our police and volunteer Fire/EMS staff to address our public safety needs.

Strategy 1: Continue efforts to better coordinate/consolidate the Fire/EMS services and promote volunteer services. Efforts to standardize procedures, equipment and training are underway. Physical standards have a budget impact.

Strategy 2: Enhance training for volunteer Fire/EMS personnel including joint training exercises to promote safety, collaboration and partnership. Working toward more joint cross training.

Strategy 3: Study long-term police dispatch and communication needs for public safety including use of the FirstNet network. Our Local emergency planning committee will review this new opportunity and compare to current service. Funds could come from Radio tower fund. Also will review using the state PSDN to enhance radio gaps through new tower connections using the State fiber network.

Strategy 4: Review our current ambulance service staffing, financing and response time and make adjustments for continued improvements. Will review insurance proceeds to determine whether additional temporary staffing hours are possible within current funding levels.

Strategy 5: Complete Insurance Services Office (ISO) Fire Rating study to develop a water tower plan for hydrant coverage in the Village area. Will continue to work toward finding and appropriate funding source to construct a water tower to allow hydrants in the village.

Goal 4 – Economic Development: Grow our commercial/business tax base to achieve a healthier balance of residential and commercial properties.

Strategy 1: Finalize the Bolton/Coventry Gateway Plan for commercial and sewer expansion for commercial development and consider creating a joint tax district. Seeking $7,500 for a 4 town regional economic development study as next step for this project.

Strategy 2: Re-join the Main Street program to promote small business growth and work with the Economic Development Commission to host four small business training sessions a year. $750 is proposed to re-join the Main Street program.

Strategy 3: Conduct a citizen preference survey and conduct market research to identify target opportunities. Will analyze results and use in the Plan of Conservation and Development and regional planning.

Strategy 4: Complete a Town sewer capacity study including water conservation and finalize a long-range sewer plan to make capacity available for commercial development.

Strategy 5: Complete a study to analyze the benefits and costs of a water tower for fire suppression to promote economic development. Seek assistance in economic review of benefits of hydrants.
Strategy 6: Promote tourism, support the Farmers’ Market and enhance linkages between local businesses. Use the Ag Viability to link the Farmers market traffic to the Villages. Plan on hosting some events with the Chamber of Commerce and Arts guild.

Strategy 7: Continue to explore opportunities for growth related to UConn and review implications of the UConn traffic study. Work with CRCOG and CTDOT to develop plan to implement recommendations (as appropriate) from this upcoming study.

Goal 5 – Fiscal Accountability and Responsibility: Develop and maintain our annual and future budgets to assure that they realistically reflect the community’s changing needs and revenue sources without creating undue economic financial stress.

Strategy 1: Evaluate alternative revenue opportunities such as grants, fee increases for specialized services, sale of under-utilized assets and tax sales. Right size our fleet, sell off unnecessary land and other assets.

Strategy 2: Aggressively work to advocate for fair and equitable State aid. Work through COST, CCM and CRCOG to push against further reduction in State aid.

Strategy 3: Develop a long-term plan for required bonding to minimize annual cost impacts while addressing infrastructure needs. Fine tune long term projects list to address community needs in a structured fashion to avoid spikes in debt service.

Strategy 4: Consider methods for alternative service provision both between the Town and Board of Education and within the region. Continue and advance efforts for collaboration and coordination of services to improve quality and lower expense.

Strategy 5: Develop cost reduction alternative strategies for providing services. This budget calls to eliminate the courtesy copy of tax bills for homes which escrow payments through their bank saving $2,000. Information is available on line.

Goal 6 – Infrastructure and Services: Continually look to future costs and savings to make critical infrastructure investments at the appropriate time, and provide necessary and cost-effective services to our citizens.

Strategy 1: Prioritize pending bonding projects and conduct financial modeling to time projects to minimize increasing debt service payments. These include but are not limited to code/energy projects; school roofs and walls; bridges (Jones Crossing) and the Booth & Dimock Memorial Library. A spring referendum for school, code/energy (including oil tanks and HVAC) and fall referendum for a revised library plan for fall are contemplated.

Strategy 2: Develop plans and timing for a second road improvement bond. Plans call for considering another road bond of $3,000,000 for FY20 since the roads continue to decline.

Strategy 3: Work with the Capitol Region Council of Governments (CRCOG) and neighboring communities to develop opportunities to share in the provision of municipal services at lower cost and for the efficient use of resources. Continue efforts started by Tolland to focus on practical solutions to sharing.
**Strategy 4:** Explore the use of additional technology to enhance electronic government services such as better permit services, updated web presence, advanced OpenGov programs, etc. Update web page to be more user and mobile device friendly and consider enhanced OpenGov and PermitView options for following fiscal year.

**Strategy 5:** Develop strategies to address the Digital Divide issue of providing high-speed Internet access to economically-challenged citizens. Work with CCM and Broadband office to attempt to get discounts for families qualified for school lunch discounts, create hotspot homework locations.

**Strategy 6:** Evaluate the microgrid proposal and implement if advantageous. Schedule of pending grant calls for an April decision on the pending Micro-grid proposal. The Town, Schools and Orchard Hills will then need to decide whether to proceed.

---

**2018-19 Budget Summaries**

The 2018-2019 budget request calls for an increase in spending of $523,755 or 1.3% increase over the previous year. It will require an increase .89 mils over the current mil rate to fund it. The previous charts illustrate how the proposed increase in spending and the tax rate are allocated between the various budgets.

The following chart compares major revenues and expenditures for Fiscal Years 2017/2018 and 2018/2019.

Public participation in the budget process is critical to determine how the proposed budget fits with the community's desire for service and willingness to pay. The public will have an opportunity to comment on the Manager's proposed budget on Thursday March 8th in the large lecture hall of the High school at 7:00 P.m. The Town Council will be reviewing the budget during the month of March and will forward their recommended budget to the Annual Town Meeting on Saturday April 28th at 10:00 A.M. in the Veterans Auditorium of Coventry High School. The budget coming from that meeting will be sent to a vote in a town-wide referendum on Tuesday May 8, 2018. The budget process is always one of difficult decisions and balancing conflicting priorities. It is also a time each year for town residents to decide what type of community we wish to live in.

Sincerely,

John A. Elsesser, Town Manager
Town of Coventry
