

***Parkside Utility
Construction, LLC On
Behalf of Frontier
Communications***

Dear Resident, Parkside will be placing buried communication lines in your area. Work will be done in the utility easement or right of way.

If you have a sprinkler system, "invisible" dog fence, or other private buried facilities, please see the back for more information.

Please feel free to call the CT FTTH's Concern Line if you have any questions.

**Concern Line:
1-800-320-8862**

Thank you!

Sprinkler with a Sidewalk:

Our main work will take place in the grass strip between the curb and the sidewalk. We may need to get to the front lawn side to access a utility box area to replace or add a new box.

If you have any sprinklers in these areas, please mark the sprinkler head with white or blue paint or white flags.

Sprinkler without a Sidewalk:

Our main work will take place approximately 3-4 feet off the curb. We may need to access a utility box area that could be up to 8 feet off the curb, depending on town or city right of way.

Underground Pet Fence:

If there is an underground pet fence in the utility row, up to 8 feet off the curb, please mark it with flags.

Other Private Utilities:

If you think you have any other private utility in the public row (IE septic, lamp post, etc.) Please contact us at your earliest convenience.

Damage & Restoration:

If you find damage and are concerned about restoration, please know that we use (seed, soil, and straw) and this may take a few visits to settle however, we will restore your property to how it was before we arrived.
